

# Revolution

Natty

i been thinkin about what you said  
i been thinking about your plans  
i'ma take you down by the lakeside  
talk to you man to man all those things you've said and done  
now you wanna take the stand they talk a lot about you  
back in london town  
they talk and talk till their faces go blue  
they say you're goin down but i don't see that fire in your eyes  
when i say you're going down  
standing before me is a shadow of a man  
who dreamed of a revolution
