

Nude Spoons

The Associates

I wrote a note and dug it underground
I dug it underground
I found a tool to scrape away the soil
I found a wooden soil
It lies there canistered for future reference
It lies there canistered
It lies there canistered for future reference
It lies there canistered with nude spoons euphoria

I found a coin and washed away the silt
I found a shiny coin
A coin whose head was slightly to the tilt
Who'd leave it there in there in silt
It skimmed itself into the silvery Tay
Deep into the Tay
It's aging happening silvery in the Tay
Is it still there today with nude spoons euphoria?
It lies there with nude spoons euphoria

Just forget about it
Just forget about it
Just forget about

Nude spoons euphoria
Nude spoons euphoria
Nude spoons euphoria

I'm glad I had this vital heart attack
It clears psoriasis
I'm glad I had this vital heart attack
It makes me want to...

Wrote a note and dug it underground
I dug it underground
I found a tool to scrape away the soil
I found a wooden soil
It lies there canistered for future reference
It lies there canistered
It lies there canistered for future reference

It lies there canistered with nude spoons euphoria

Just forget about it

Just forget about it

Just forget about

Nude spoons euphoria

Nude spoons euphoria

Nude spoons euphoria
