

Breathe Tonight

DOGSTAR

Under full moon
I see you there
And I beg forgiveness
From your stare Have I done wrong
Beyond repair?
And you say that
I should lie alone and Breathe tonight
Feel the bite
Dream tonight
Where it's alright Under full moon
I lost my way
I lost everything that made
You want to stay I traded life
For just one night
That has come and gone
And now I lay alone and Breathe tonight
Feel the bite
Dream tonight
That it's alright Breathe tonight
Feel the bite
Dream tonight
Where it's alright Breathe tonight
Feel the bite
Dream tonight
That it's alright
