Whenever

Black Eyed Peas

Love, through the tree, past the sky
Beyond the northern lights
You will see my delight
Reflecting in your eyes
And I won't let go if you wait for me, whenever, whatever
And then you, select the day, selection, whenever, whenever
I'll go, whenever, whenever, I'll go
I want, I want, I wanna love forever, love forever, baby
Wherever, wherever, you wanna go one day
Do whatever, do whatever, baby
Wherever, wherever, forever together
I fell asleep, don't know why you let me come alive
You and me, we collide, ignite the starry fire
And you warm me up and you wait for it, whenever, whenever
And you wake me up and you wait for it, whenever, whenever
I wanna go, whenever, whenever, I wanna go

I want, I want, I wanna love forever, love forever, baby
Wherever, wherever you wanna go one day
Do whatever, do whatever, baby
Wherever, wherever, forever together
Whenever, whatever, whatever, whatever
Whatever, whatever, whatever, whatever
I love you forever and ever and always I love you
Whenever you need me, I'll be there right by you
Whenever you call me, I'm there when you call
Whenever you're falling, I'm there when you fall
Wherever you're going, I'll be right there showing
Our love's always growing and growing and growing
I know that you know it, there's no need for guessing
When I am requested I'm there with no questions
As I'll go, wherever, whenever
If ever you need me I'll be here forever
