

I Care About You

Babyface

Sometimes I feel so alone, baby
I call your heart but there's no one at home
And takin' a toll on my pride, pride
I'm reachin' out but there's no one inside
You know it doesn't feel right when I look in your eyes
I know love is blind but the heart doesn't lie
I'll ask one more time, maybe, this time you'll try
So tell me, girl, what's deep in your heart
Girl, I care about you, I'm there for you
So why don't you care for me like I care about you
Girl, I care a'bout you, I'm there for you
So why don't you care for me like I care about you
I spend like all of my days, baby
Tryin' to cuss out just how things got this way
I thought that we were in love
But I swear right now, I don't know what you want, babe
I'll make sure that I give you quality time
But lately I feel you're not home by design

But still I'm gonna try to give you the love of my life
In hopes that you, that you would open the door, delay
Girl, I care about you, I'm there for you
Why don't you care for me like I care about you
Girl, I care about you, I'm there for you
So why don't you care for me like I care about you
Sometimes I'm not sure that, that I'm all you've got
Sometimes I'm not sure you love me or not, baby
There's one that I'm certain of, girl, I care for you
And the one thing that I want is that you care for me too, yeah
Girl, I care about you, I'm there for you
So why don't you care for me like I care about you
Girl, I care about you, I'm there for you
So, so why don't you care for me like I care about you
Oh baby, baby, baby, baby, baby, baby, baby, baby, baby
Oh yeah, I care for you, baby, baby, baby
