

Shadows Left Behind

Controller

-Chorus-

No where to turn, nowhere to hide
Hit and run, Blindsight
Fight Hard, to let it subside
No innocence inside
The pain from the past, has never been kind
Memories Defied
Never forget, shadows left behind

-Verse 1-

I tire of this masquerade
These memories are haunting
Why's it so hard to just let go
Just let go

-Chorus-

Isn't easier to live this way
The faces are taunting
Why's it so hard to just let go
Why's it so hard to just let go
Let Go
Let Go

Is it time to leave these scars?
Is it time to leave these scars?
Just leave them behind
Just leave them behind
I tire of this masquerade
These memories are haunting
Why's it so hard to just let go
Why's it so hard to just let go
Let go
Let go
