Sunny Day

Akon

Who'd ever thought that I would see this day
Where I would see my ghetto life fade away
'Cause I was lost and couldn't find a way
And now I look forward to everyday
(Welcome to my sunny day)
Block, don't stop, always stayed hot
No matter how the seasons got
I still remember when they took me away
Kept it on lock, then I got caught
I realized I had to stop
Then I took the time to explore a better way
Searched high and low, so close yet so far to go
I just know there's a sunny day
Who'd ever thought that I would see this day
Where I would see my ghetto life fade away
'Cause I was lost and couldn't find a way
And now I look forward to everyday
Welcome to my sunny day, my sunny day
Everyday a better day
Welcome to my sunny day, my sunny day
Everyday a better day
Welcome to my sunny day
Been a long day, on my way
To my holy place to pray
Give thanks for every blessing given to me
I know there's more to see, more to me
No more living in misery
'Cause this is how I visioned life to be
Searched high and low, so close yet so far to go
I just know there's a sunny day
Who'd ever thought that I would see this day
Where I would see my ghetto life fade away
'Cause I was lost and couldn't find a way
And now I look forward to every day
Welcome to my sunny day, my sunny day
Everyday a better day
Welcome to my sunny day, my sunny day
Everyday a better day
Welcome to my sunny day
