

You Don't Know Me (Minus One)

Kathryn Bernardo

You don't know Me
You don't know Me
You we're there but you didn't know me
Said you care but you were busy
Filling rooms w/ your harsh light
That I always found
Oh so gloomy!
Your way w/ words how they threw me
Into spirals
Into riddles
Into mazes
I thought I wanted to explore La la la la la la
La la la
La la la la Well darling this is chaos
I think we've reached a discord
And it's more than my heart can afford You don't know Me
Still don't know Me Never bothered climbing walls
Feel demolished even though
You never got that far at
All over the place
Are you and I
All over this phase
Are you and I You take left and i'll take right
Baby i'll see ya on the other side La la la la la la
La la la
La la la la Well darling this is chaos
I think we've reached a discord
And it's more than my heart can afford La la la la
La la la la la You don't know Me
Still don't know Me Guess you'll never really know me
It's too bad cause really baby
It's your loss after all Well darling this is chaos
I think we've reached a discord
And it's more than my heart can afford Well darling this is chaos
I think we've reached a discord
And it's more than my heart can afford.
