

# Goodbye to Yesterday

[Elina Born & Stig RÅgsta](#)

All our planets used to fade and our days  
they don't circulate the same opinion no more

No All the colours turned to grey

We've done a straing

Our relationship is sailing of the shore

Yeah, yeah, yeah, yeah

I'm sick of living this way

Yeah, yeah, yeah, yeah

But I know it's gonna change

No matter if it's right or wrong this time

We gotta leave the past behind

There is nothing more to say

So goodbye to yesterday

Standing at the point of no return

As the tears run down my face

No turning back

I wonder that

So goodbye to yesterday

Goodbye to yesterday

I don't know where we went wrong

But the guides we're wrong

It's just killing everything that just to be

Everyday is the same old song

No we can't go on

Covering our eyes from the reality

Yeah, yeah, yeah, yeah

I'm sick of living this way

Yeah, yeah, yeah, yeah

But I know it's gonna change

No matter if it's right or wrong this time

We gotta leave the past behind

There is nothing more to say

So goodbye to yesterday

Standing at the point of no return

As the tears run down my face

No turning back

I wonder that

So goodbye to yesterday

Goodbye to yesterday  
Just say goodbye  
To the days we had  
Yeah, yeah, yeah, yeah  
We're sayin' goodbye to the love we shared  
No matter if it's right or wrong this time  
We gotta leave the past behind  
There is nothing more to say  
So goodbye to yesterday  
Standing at the point of no return  
As the tears run down my face  
No turning back  
I wonder that  
So goodbye to yesterday
