

Zombie a Go Go

Captain Clegg & The Night Creatures

(Chorus)

zombie a go-go
dance of the dead

zombie a go-go
it's blood red

zombie a go-go
get on your feet man

zombie a go-go
and the feel the beat

well you didn't stand a chance on the way to the dance.

it's a zombie a go-go

you had big plans for the weekend

ready to jump off of the deep end

you got your suit on you're walking to the dance

out jumps a voodoo priest he's in a deep trance

he takes some powder out he blows it up your nose

now you're dead man. and you're ready to go

to the zombie a go-go

chorus

you killed a few friends on the way there

your brother freaked out you gave him quite a scare.

you killed the doorman

you killed the DJ

you killed the rent-a-cop

you sent them to the grave

but now they're dancing

even though they died

they do the hip shake and they're zombified

at the zombie a go go

yeah

steel guitar solo

so the mayor calls out martial law

but the zombies they don't care at all

they send a SWAT team to the dance floor

it's sick and twisted it's all blood and gore

it's on the tv it's on the radio
and now the zombies they got a dance show

chorus
