

# Walls of the Fort

## Froleg

[1st Verse]

Out the front hall I creep like a cat  
I leave the door crack  
and squeeze like a rat  
Down the hill I abscond from my throne  
this landscape that I roams illuminated bichrome  
Guided by the aura of the moon  
I climb the palace stepstone to my uncertain doom  
And I know sheâ€™ll take me over alone  
and drift out into the night like the calls of a loon

[Chorus]

Well I hardly ever know which way to begin  
When Iâ€™m stuck at a place between good deed and sin  
Said Iâ€™m in second place in a race I canâ€™t win  
Iâ€™m a fish with no fins  
sheâ€™s a shark and I canâ€™t swim  
No I canâ€™t swim

[sax solo]

[guitar solo]

[2nd Verse]

Iâ€™ll scale like a snail  
The walls of the fort  
Where the peasants at the gate celebrate and cavort  
The drawbridge  
Falls down to the floor  
And before I could say more she summons me to the door  
She takes from me  
My coat and my hat  
you know we exchange some words and laugh  
She takes a seat on my lap  
Lovinâ€™ begins  
As quickly as it ends  
And then Iâ€™m out â€˜ttille spin  
Iâ€™m out on the road again

[Chorus]

Well I hardly ever know which way to begin

When Iâ€™m stuck at a place between good deed and sin  
Said Iâ€™m in second place in a race I canâ€™t win  
Iâ€™m a fish with no fins  
sheâ€™s a shark and I canâ€™t swim
