

# Shovel

## Dessau

Hearts bend 'cause they can't break  
When they can't take  
All that is given to them  
Glass eyes on your sad face  
It's a sad story somebody's written on you  
Love in my heart, right from the start  
So please take me with you  
Birds sing out the window  
Sing out the window sing  
Do you hear those birds

sing out the window  
Sing out the window sing  
Take me with your shovel  
We'll bury all your troubles  
All your troubles  
Oh the light is always on you  
Always in the light  
The light is always on you  
Always on you  
Always in the light
