

Winter Song

Chris Rea

It's a cold, cold feelin'
On a real lazy wind
That blows all the way trough you
And the autumn beginsHow it cuts like a saber
How it chills to the bone
You got cold feet and fingers
And you're thinkin' of homeIf I put my arms 'round you
Turn you in from the storm
From your autumn through winter
Darlin' I'll keep you warmMy overcoat's empty
Deep, wide and long
I got room for you darlin'
Till your winter
Till your winter has gone
I got room for you darlin'If I put my arms 'round you
Turn you in from the storm
From your autumn through winter
Darlin' I'll keep you warmMy overcoat's empty
Deep, wide and long
I got room for you darlin'
Till your winter
Till your winter has gone
I got room for you darlin'
Till your winter has gone
