

Wide Awake (feat. Gustaf NorÃ©n)

[Eric Saade](#)

You've been around for a year like you just don't care
I want your love but your love's not in the air
I wanna believe I can leave but it makes me scared
Yeah you've been around for a year like you just don't care Every time I'm prayin', praying
I got you on my mind
No matter what I'm saying, saying
You come back in my live
You just wanna break it, break it
You're sending me to paradise
You know I can't escape it, escape it
I never won a fight You keep me wide awake everyday every weekend
day every weekend, day every weekend
You keep me wide awake everyday every weekend
day every weekend, day every weekend
