

You Are

Jimmy Wayne

Baby when I look at you
You know it breaks my heart in two
How beautiful you are
I've seen you in a million dreams
Now you're finally here with me
We will never be apart
I want to hold you forever
That's all I'll ever need[Chorus]
You are my love
You are my life
My heart and soul
The truest friend I've ever known
You are my world
All of my dreams
My fantasy, my reality
I love everything you are Every time I close my eyes
It hits me so deep inside
How real this feeling is
I'm intoxicated by your touch
It's a sweet, sweet rush
I'm in love with your kiss
You're the one I trust the most
You change me[Chorus: x2] Everything, I love everything you are
