

Razor

Foo Fighters

Wake up it's time
We need to find a better place to hide
Make up your mind
I need to know I need to know tonight Sweet and divine razor of mine
Sweet and divine, razor blade shine Patience my dear
We could spend a lifetime waiting here
Maybe this time
I hope I get the chance to say goodbye Sweet and divine razor of mine
Sweet and divine, razor blade shine Day after day, cutting away
Day after day but anyway Wake up it's time
We need to find a better place to hide
Make up your mind
I need to know, I need to know tonight Sweet and divine razor of mine
Sweet and divine, razor blade shine
