Brand - New - Life

Young Marble Giants

So bad when you went away
Nothing I could do or say
And now we are a lonely two
Sit at home and watch the tubeI've been hurt before,
Sorrow knocking on my door
PainAnd so I make a brand-new-life
Fashioned out of brand-new strife
And when I hear the doorbell ring
I can never let them in to mePain is in me every day
When you went it came to stay
Come and be a cure for me
Make the tears come out of meSo bad when you went away
Nothing I could do or say
And when I hear the doorbell ring
I can never let them in to me
