Batteries (Remix)

Ginuwine

(Da-da-da, da-da-da, da-da-da-da)
This is the one and only, Trina, yeah
(Da-da-da, da-da-da, da-da-da-da)
Ginuwine, yeah, what up, [Incomprehensible]?
You ready for this?
Some of them dancin'
Some of them drinkin'
Everybody like, "What's up?"
Muse like a party
Girls dress naughty
Got them homies like, "What's up?"
They wanna take 'em out like a pitcher
Shawty over there movin' like a stripper
But she ain't the one that I'm tryin' to get
'Cause I'm thinkin' that she might be easy
I'm lookin' for a new type
Some that be like
I ain't 'bout leave with you
So I can give her this pimpin'
Girl, what you trippin'
Tell me what you 'bout to do?
She told she about to go home
But first she gotta stop by the store
She needed double-A's for a new device
So I looked that her and said, girl
Girl, put your money away
(Let me give you batteries)
I'll be on double A's
(I'll give you batteries)
When you're screamin' my name
(Let me give you batteries)
Just put your toys away
(Give you batteries)
Girl, I'm gonna be goin', goin' goin', goin'
(I can give you batteries)
Goin', goin' goin', goin'
(Give you batteries)
Girl, I'm gonna be goin', goin' goin', goin'
(I can give you batteries, give you batteries)

I can do it so good
You can call me oak wood
Beat it like a triple ex star
I run like a marathon
Make you wanna tell your mom
Mama, he the best by far
Have you comin' back for more
All you gotta do is open up the door
I'll deliver the goods like a postal man
All you gotta do is give me that address
A double shot of hand is
All you gotta give me
I'mma make it do what it do
So what it's gonna be
Babe, is you leavin' with me
Baby-girl, what you tryna do?
She said that she don't wanna be alone
I think that she's about to take me home
Next time you run into a lonely girl
Just look at her and say, yeah
Girl, put your money away
(Let me give you batteries)
I'll be on double A's
(I'll give you batteries)
When you're screamin' my name
(Let me give you batteries)
Just put your toys away
(Give you batteries)
Girl, I'm gonna be goin', goin' goin', goin'
(I can give you batteries)
Goin', goin' goin', goin'
(Give you batteries)
Girl, I'm gonna be goin', goin' goin', goin'
(I can give you batteries, give you batteries)
Energizer bunny, you ready to get aside?
Can you keep up, well, let me take you for a ride
Introduce my waterfall, while I climb on top
Make sure you charge that 'cause I don't wanna feel it stop
Go all night, go on and on and on
Travis Parker get 'em drums hit me till you make the song
Make me do the shake, tell me how I taste
Guinness World Record, how much [Incomprehensible] can you play?
Cut it like a steak, make me sweat till I faint
The bedroom's a sauna and make me lose weight
500 degrees, whistling, coming at my body

If you a G, be a G, you gotta hit the G-spot
Girl, put your money away
(Let me give you batteries)
I'll be on double A's
(I'll give you batteries)
When you're screamin' my name
(Let me give you batteries)
Just put your toys away
(Give you batteries)
Girl, I'm gonna be goin', goin' goin', goin'
(I can give you batteries)
Goin', goin' goin', goin'
(Give you batteries)
Girl, I'm gonna be goin', goin' goin', goin'
(I can give you batteries)
Goin'
