Weighty Ghost

Wintersleep

I got out of bed today, Swear to God I couldnt see my face
I got out of bed today staring at a ghost
Who forgot to float away, didnt have all that much to say
Wouldnt even tell me his own name
Whered my body goWhere oh whered my body go?
Africa or Mexico?
Where or whered my body go?
Whered my body go?Have you seen my ghost?
Staring at the ground?
Have you seen my ghost?
Sick of those goddamn cloudsAre you some kind of medicine man?
Cut the demons out of my head
You cant kill something thats already dead
Just leave my soul alone
I dont need no surgery
Take those knives away from me
Just wanna die in my own body
A ghost just needs a home
