Take It Back

Arjun

Yo Donell you know whats up
Kept putting you down but you rose back up yeah
Joe told you to ride with me
We had street dreams but you kept s-s-s-stuttering
Craig David was walking away filling you in about his last 7 days yeah
Bump and grind with my man R Kelly
It's getting hot in here take your clothes off for Nelly YoThere once was a time when music was life
The rhythm and the bass made me feel so right
Take it back to the time it was R&B
Back with all my homies in the SUV
Take it back to the times we rocked a G-Shock
With the jeans hanging low, and the air force ones
Take it back to the times you would chill with your boo
Usher made me wanna get freaky with you
Take it back to the times when we fell in love
With music, we gotta bring the R&B back
We gotta bring R&B back
We gotta bring R&B backYo jagged edge where the party at?
Walked outta heaven now we're bringing it back
TLC didn't want no scrubs
Independent women don't be falling in love
Say my name say my name
Cos my girl Beyonce got me going crazy crazy
Oh Blackstreet ya got no diggity
Room one twelve where the players get jiggy with itThere once was a time when music was life
The rhythm and the bass made me feel so right
Take it back to the time it was R&B
Back with all my homies in the SUV
Take it back to the times we rocked a G-Shock
With the jeans hanging low, and the air force ones
Take it back to the times you would chill with your boo
Usher made me wanna get freaky with you
Take it back to the times when we fell in love
With music, we gotta bring the R&B backWe're take take taking it back
Take take taking it back yo
We're take take taking it back
Take take taking it back yo
We're take take taking it back
Take take taking it back yo

We're take take taking it back
Take take taking it back yoBring back the music
Take it back to the music
Let's go back to that time
Baby try to rewind
And let's go
Let's go
Let's goooo
Let's go and take it back
Take it back to the time it was R&B
Back with all my homies in the SUV
Take it back to the times we rocked a G-Shock
With the jeans hanging low, and the air force ones
Take it back to the times you would chill with your boo
Usher made me wanna get freaky with you
Take it back to the times when we fell in love
With music, we gotta bring the R&B back
We gotta bring R&B back
We gotta bring R&B back
We gotta bring R&B back
We gotta bring R&B back
I said we got to bring the R&B back
I said we got to bring the R&B back
