Waiting

Social Code

One day you're flying
The next day you're falling to pieces
I can't keep putting you back together
On stumbled foot steps
Together we fall on our faces
I hope that we can make it through this[Chorus]
Yeah so is this what I've been waiting for
Please tell me there's something more
This is not what I wanted
So is this what I've been waiting for
It's not like I imagined it
No i'ts not what I wantedIf I fall and crumble
Would you help me to pick up the pieces?
I wish that I knew you were right behind me
We're running in circles
I'm growing tired and jaded
I don't know if we can make it through this[Chorus]
Yeah so is this what I've been waiting for
Please tell me there's something more
This is not what I wanted
So is this what I've been waiting for
It's not like I imagined it
No i'ts not what I wanted
No i'ts not what I wantedYeah so is this what I've been waiting for
Please tell me there's something more
This is not what I wanted
So is this what I've been waiting for
It's not like I imagined it
No i'ts not what I wanted
No i'ts not what I wanted
No i'ts not what I wanted
No i'ts not what I wanted
