

# Empty Room (feat. Yuna)

## Big Wild

You've got a hollow soul  
I feel that love is missing  
The colour in your eyes  
Is something I've been wishing  
If, the burden on my back  
Holding on to what we had  
So that I'm dancing in an empty room And not a memory or touch  
Became so distant  
The sun will rise again  
With love comes forgiveness  
Lift the burden on my back  
Letting go of what we had  
So that I'm dancing in an empty room  
So that I'm dancing in an empty room  
So that I'm dancing in an empty room  
So that I'm dancing in an empty room  
So that I'm dancing in an empty room
