

# Kimberly

## Marques Houston

Kimberly, I'm so glad you made it  
You're finally here  
If these walls could talk  
They'll tell you secrets of how I've been anticipating you I know you want me to satisfy ya  
And to gratify your desires  
Your body's whispering to my soul  
And telling me to take control Come along with me 'cause my ride don't stop  
We can make love that the neighbors watch  
Open up the blinds, let the whole world see  
M H and Kimberly Baby, I can take you to that place  
Where you can freely scream, touch and taste  
I can make your fantasy reality  
Kimberly, Kimberly Crawling on my bed, climbing close to me  
And I can hardly breathe 'cause I still can't believe  
Laid your hand on my chest, gently lifted your knees  
Slowly started grinding, hot, hot, destination, ecstasy  
First class tickets to it, no time for frontin', do it Your tears got your eyeliner running down your face  
You're so sexy, I can feel your body shake The ceiling fan's spinning and the light is low  
I got frequent flyer mileage, ooh  
The ceiling fan's spinning and the light is low  
I got frequent flyer mileage  
There's no limit to how far I might go  
To explore is the key, take me Kimberly Come along with me 'cause my ride don't stop  
We can make love that the neighbors watch  
Open up the blinds, let the whole world see  
M H and Kimberly Baby, I can take you to that place  
Where you can freely scream, touch and taste  
I can make your fantasy reality  
Kimberly, Kimberly Anytime you want me, baby, I'll be your playboy  
Anytime you're feelin' lonely, baby  
I'll be there to feel the force It's like the call of the wild when we're making love  
More than just physical  
Deep inside every woman, there's a Kimberly  
She's incredible Come along with me 'cause my ride don't stop  
We can make love that the neighbors watch  
Open up the blinds, let the whole world see  
M H and Kimberly Baby, I can take you to that place  
Where you can freely scream, touch and taste  
I can make your fantasy reality

Kimberly, Kimberly Yeah, this story's about a girl named Kimberly  
Ooh, y'all really don't wanna know where I'd be without you  
Song says it all man, shout out to Kimberly  
You know who you are
