

# Like This With the Devil (Demo 1996)

## Entombed

There ain't no god that will save you from regret  
It's just that god is in a state of neglect  
And it's your goddamn act that is a major threat Salvation won't be rearing it's head  
for a fact at least not in my time  
And what good is a song for peace  
when the fucker doesn't even rhyme I won't be calling  
Calling as we level  
And when were falling  
I'm like this with the devil  
When they're creeping upon you  
Eating dust that you bleed  
Don't say I didn't warn you  
A toast to your death to myself 'cause I'm free  
Like this with the devil
