I Think I'll Stay

Kevin Sharp

I could runaway go somewhere far
Pack all my things in the back of my car
I could drive all night for a week or so
Listen to sad songs on the radio
whoa whoaI could take a walk in the desert sun
All by myself , wouldn't need no one
I could learn to live out on my own again
Ya I could be gone before you count to 10(Chorus)
ooh but I think I'll stay
I really kinda like the way it feels when you put your arms around me
& I love everyday waking up here next to you
It's all I wanna do
I think I'll stayI could lose myself in a cloud of dust
Find me someone else and forget about us
I could try my hand at letting go
But I just wanted you know(Chorus)
I think I'll stay
I really kinda like the way it feels when you put your arms around me
& I love everyday waking up here next to you
It's all I wanna do
I think I'll stayMy mind wonders aimlessly sometimes
but my heart knows its destiny tonight(Chorus)
I think I'll stay
I really kinda like the way it feels when you put your arms around me
& I love everyday waking up here next to you
It's all I wanna do
I think I'll stay
I think I'll stay
I think I'll stay
I will stay!
