

World Gone Sour (The Lost Kids)

Method Man

Coming back out of the cracks of sofas and fanny packs

This ain't a candy rap this is where the candy attacks

When they wrong when their sanity snaps

They break laws not yours but break jaws

In fact, they grow heavy like a monkey on your back

Have some thumb-tacks playing pin the donkey with your cat

But fuck that they light a fire cracker where you dump at

Right besides the shower where you keep the lotion pump at

Oh no, they creepin like some ninjas in their dojo

They knock the little nano, the horsey on your polo

Crushin all your dreams cut the string from your yoyo

Trade your lamborghini for a rovo

I bet you thought that this was a promo

But nono, this is boba fet meets han solo

Kids gone loco, until you seek your teeth in

You know the motto, if lifes a treat then youre eatin(Chorus)These kids are sour until the day that theyre
chewed down

Thats bad news now they now they bringin bad news down

First theyre sour then theyre sweet little dudes

And they guna fight the power till they food

Now eat em up, Shut up and eat em up

This beat goes hard I just gotta eat it up

Its like im runnin , i gotta eat it up

And when they candy goes raw just gotta eat it up(Verse)Oh snap, look what fell out the patch

Right in these dudes lap how uncool is that

All right jack, now youre on the wroung side of the map

With a busted GPS and on the wrong side of the snacks

They fight back, rolling like the army

Throw bleach in laundry unfold your origami

I like that some snacks sweeter in the end

But then again, aint nothin sweeter then revenge

Now they are on your facebook deleting all your friends

Clogging up your toilet with a poop eating grin

All up in your closet cutting holes in every pocket that you like to keep your wallet and i promise im a pimp

Wipe the music off your MP3

Burn a rug, pull the plug on your MTV

This is thug vision in 3D

These kids arent worth it they play dirty like they are ODB(Chorus)
