Question Of Faith

Lighthouse Family

Can't see the truth in triggered words
Don't need a mountain for a wall
See the big old moon spin around the world
Somehow it makes me feel so smallI know I've been living the simple life
Really that's the main thing
Nowadays nobody speaks about
The way they feel about thingsI know I need something to set me right
And now it seems there's nothing
And nowadays nobody thinks about
A way to ease the sufferingBaby, I know you're the first thing
I believe in, honestly
How do you prove what you can't see?
Well, it's a question of faithBaby, I know you're the first thing
I believe in, honestly
Say you don't know enough about me
Well, it's a question of faithDon't wanna complain, the weather could be worse
But I wish I'd learned from my mistakes
Don't really need no clever words
To understand what's in your faceKnow I've been living the simple life
Really that's the main thing
Nowadays nobody speaks about
The way they feel about thingsI know I need something to set me right
And now it seems there's nothing
And nowadays nobody thinks about
A way to ease the sufferingBaby, I know you're the first thing
I believe in, honestly
How do you prove what you can't see?
Well, it's a question of faithBaby, I know you're the first thing
I believe in, honestly
Say you don't know enough about me
Well, it's a question of faithI know I've been living the simple life
Really that's the main thing
Nowadays nobody speaks about
The way they feel about thingsI know I need something to set me right
And now it seems there's nothing
And nowadays nobody thinks about
A way to ease the sufferingBaby, I know you're the first thing
I believe in, honestly
How do you prove what you can't see?

Well, it's a question of faithBaby, I know you're the first thing
I believe in, honestly
Say you don't know enough about me
Well, it's a question of faithBaby, I know you're the first thing
I believe in, honestly
How do you prove what you can't see?
Well, it's a question of faithBaby, I know you're the first thing
I believe in, honestly
Say you don't know enough about me
Well, it's a question of faithBaby, I know you're the first thing
I believe in, honestly
How do you prove what you can't see?
Well, it's a question of faithBaby, I know you're the first thing
I believe in, honestly
Say you don't know enough about me
Well, it's a question of faithBaby, I know you're the first thing
I believe in, honestly
