

So Sweet

Casey James

Used to set my life on cruise control
Days just rollin' on
Thought I was doing all right alone
Then I saw your smile, and then you looked my way
And everything changed

[Chorus]

And I don't know how I got by
How I survived life living without you
Know now what I was missin'
'Cause I've wanted to kiss you since the day that I found you
Now everything makes sense to me
I never knew that love can be so sweet

Your love has taken me to a place
A place I want to be
Gets better with every breath I breathe
It lets your lovin' ways
Fall on me like rain every day

[Chorus]

Every time we talk
Every time we touch
Every time I look in your eyes I see how lucky I am

[Chorus]
