

Hit The Planes Down

Kill Hannah

I'm that cowboy in the sky
With all the freedom of a madman
Was that shining carnival
Carousel that took me under
In one fowl blow
Hit the planes down
And tear the sky out
Hit the planes down
In one fowl blow

Where the lighting's on the door [?]
Attached by hinges to the ceiling
Where the cheek bone shadows fall
Upon a face, it took me under
My fuse box blows
Hit the planes down
And tear the sky out
Hit the planes down
In one fowl blow
