## Who Makes The Rules

## **Steven Curtis Chapman**

Well, I?ve been watching us very close And I guess the one thing that?s been bothering me the most Is when I see us playing by the same rules that the world is using Well, I?ve been listening to the things that we say And I. I hear us mention words like fortune and fame And it makes me wonder if we?re sure about the side we?re choosing That?s why I?m asking you Who makes the rules for me and you? When it?s wrong or right, is it black and white? Who makes the rules for me and you? It?s our life at stake so we better know who makes the rules Yeah, who makes the rules? When I see people just like you and me Trying to live out the pictures they see on TV Gotta have a new car, new clothes, new love When they get tired of trying Well, I?ve been reading ?bout a different way

Seems like somebody?s telling us the truth and somebody?s lying I wanna know who

Talking ?bout dying to live and losing to gain

Tell me, who makes the rules for me and you?

When it?s wrong or right, is it black and white?

Who makes the rules for me and you?

It?s our life at stake so we better know who makes the rules yeah

Two voices are calling out to you

You?re serving the one you?re listening to

So, tell me who, somebody tell me who

Who makes the rules?

Who makes the rules?

Who makes the rules for me and you?

When it?s wrong or right is it black and white?

Who makes the rules for me and you?

It?s our life at stake so we better let Jesus make the rules yeah oh Oh yeah make the rules, makes the rules yeah
