

# Black Widow

## Children Of Bodom

(Right!)

Don't remain, go misplay, you're so, so wild  
(Traitor!) your vengeance night, yes, always for me  
(Fire!) the fire is more right than my eyes  
Always now, once you know, widow

(Right!)

(Murder!) your fire murders all my problems

Ah (oh yeah!)

[Chorus:]Traitor: hate your face, obey or you're gonna die  
Fire: here I see the fire in my heart

Oh yeah: I'll come back to you when I'm dead

Murder: murderer in you call me to die

Your voice is getting closer (today: fuck every day!)  
Sleep up in the night - the Lord doesn't matter in my fight  
Widow, tell me the reason

[Chorus:]Traitor: hate your face, obey or you're gonna die  
Fire: fire is into turning in my heart

Oh yeah: I'll come back to you when I'm dead

Murder: praying on my knee, I saw her near, come here  
I'm dead: this is all, widow
