

She Donâ€™t Wanna Man

Asher Roth

She don't want a man man man man, she just wants to dance, just dance
Quiet and confident, not a bit, I'm the
shit

Screaming out, out loud, right now, I'm the shit

Let 'em know, let it go, feelin' sexy, feelin' grown

I be sippin' on patron mixed with pineapple

Then she looks up, spots me only for a sec

But in that moment, our eyes locked, I swear that we had sex

Yeah, In that tank top, tight jeans, high heels, nice teeth

Ooh, I think she likes me but, but it be unlikely
Ain't looking for no man man, really just came here to dance
dance

On the dance floor

(I know you want my body, I just came to party)

Ain't looking for romance mance, really just came to dance dance

On the dance floor

(I know you want my body, I just came to party)She don't want a man, she just wants to dance

She don't want a man, she just wants to dance on the dance floor
I see Boyder and ask him, "Yo can you take her
fat friend?"

He laughs and then digs it "Hell yeah, I'll be your wingman"

We two-step, we grooving', we dancing', we movin'

The crowd be through it, people getting real stupid

Check my breath then my sweat on my chest and my pits

Yeah I'm fresh, super fresh, I would do me in a sec

Bout to get my dance on so I put my hands on her

Then she frowns, turns around with a look like
Ain't looking for no man man, really just came here to dance
dance

On the dance floor

(I know you want my body, I just came to party)

Ain't looking for romance mance, really just came to dance dance

On the dance floor

(I know you want my body, I just came to party)She don't want a man, she just wants to dance

She don't want a man, she just wants to dance on the dance floor
Boy, you need to cool down cause I'm way too
hot

(Girl, you need to cool out cause you not that hot)

See, I'm just tryna cool down cause I'm way too hot

(Girl, you need to cool out cause you not that hot

I'm just playing, I'm just hating, no, you way too hot)
Ain't looking for no man man, really just came here to
dance dance

On the dance floor

(I know you want my body, I just came to party)

Ain't looking for romance mance, really just came to dance dance
On the dance floor
(I know you want my body, I just came to party)She don't want a man, she just wants to dance
She don't want a man, she just wants to dance on the dance floor
