Belle Said

River City High

Belle said wel get up around 9
I just need a little time
Belle said we could do anything
In our own mindI was thinking that talk is cheap
From girls that talk in their sleepBelle said we were running right on time
Belle said it OK wel just walk the line(chorus)
You get away with it over and over
You get away with it over and over
You get away with it over and over
And I gonna pay for it over and overBelle said wel leave town around 9
There some things wel leave behind
Belle said wel go everywhere
But girl you never left your bed
I was thinking that your talk is cheap
Cause girl you, youe just talking in your sleepBelle said we were running right on time
Belle said it OK wel just walk the line(chorus)Wake me, before you sleep away the
Wake me
Wake me, before you sleep away the
Wake me, before you sleep away the
Before you sleep away the dayBelle said we were running right on time
Belle said it OK wel just walk the line(chorus)Belle said
We could do anything
