

# Living

## Alice Cooper

Living is only one part of being  
Believing is to know just what you're feeling  
You weren't supposed to think you know  
You heard  
I'm sure that in knowing you're growing and it's youThinking is your own world to live in  
Dreaming is the one way to feeling  
Your mind and your eye can see everything that you  
The only real person you need to know is youLiving  
Living  
Living
