

Sleep Sandwich

Elvis Perkins

Last night was the science-fiction
Movie with you and me
You in your velvet space-helmet
Me in my rainball hatIf you'd write my lines
I would gladly play father-time on your tv-show
You got the wilderniss lipstick
And I got the penmarkingYou are great, yeah you're a star
Someday everyone will know
Who you are
Everyone will know
Who I amIt's morning in heaven, again
LA is lost in the clouds
So I sings goodbye skylines
And I will sadly sing you off to our next episode
I'll make the most of my time, machine
And I'll build the fare I'm inYou'll be great, you'll be a star
Someday everyone will know
Who you are
Everyone will know
Who I am
Everyone will know
Who they areMay you climb high
Into the sky
May ratings riseOnce I learn these lines
I will madly sing lullabies
Into the unborn fans
You write the bible and I'll
Read it off my eyelidsAnd we'll be great, yeah we'll go far
Someday everyone will know
Who you are
Everyone will know
Who I am
Everyone will know
Who they are
Who you are
Everyone will know
Who I am
Everyone will know
Who they areLast night was the science-fiction

Movie with you and me
You in your velvet space-helmet
Me in my rainball hat
