

# Moisture Residue

## 10 Years

I'd rather sink then swim  
Give up, give in, and let my demons win again.  
My whole life I've tried to keep my head above water  
And out of the clouds I'm face down on middle ground

So I release this breathe  
From my chest  
As I lay to rest  
Deeper and deeper  
With a fish  
I pray peace may find me

Moisture residue  
Slowly killing you  
Moisture residue  
Slowly killing you  
Moisture residue  
Slowly killing you  
Moisture residue  
Slowly killing you  
Moisture residue

---
