

I've Got Something to Say

Reef

We have come a long way
After all the things we have been through
I'm glad still to have you I know you're hurting
I know you're hurting
It will get better everyday I love all that you are
You are what I live for
After all the things we have been through
I'm glad still to have you I know you're hurting
I know you're hurting
It will get better everyday
