

# I Love You

## Hellfire Society

And I'm smiling and calling and taking good care of you  
Listening, feeling you talking to you  
I can see you love me when you look into my eyes And I love you, adore you, I will always be there  
You'll be mine, I'll be yours. my love don't be scared  
You can tell it's true, just baby look into my eyes You fool,  
you shouldn't have trusted me  
oh baby believe me  
I'm gonna lie to you You fool,  
you shouldn't have trusted me  
oh baby believe me  
and say you love me too And I kiss you, caress you and make you believe  
that I feel what I feel, what I feel is so deep  
I can't live without you baby look into my eyes And I need you and I want you, I want you so bad  
you're so deep down my heart and I'm feeling so sad  
I just wanna be with you and look into your lies You fool,  
you shouldn't have trusted me  
oh baby believe me  
I'm gonna lie to you You fool,  
you shouldn't have trusted me  
oh baby believe me  
and say you love me too Your poison is inside me  
this time i feel it I can't breath You fool,  
you shouldn't have trusted me  
oh baby believe me  
I'm gonna lie to you You fool,  
you shouldn't have trusted me  
oh baby believe me  
and say you love me too
