

Without Love

Descendents

Long years waiting for it
Lost patience given to disease
Within me
Long days fighting for it
Lost years praying for relief
From sickness and madnessLife won't wait for us
And love won't heal itself
Let's find our way
Another day goes by
We can't live like this anymore
Can't live without love
Another year goes by
We can't live like this anymore
Can't live without loveStop waiting, no one has to wait
We live to fight a million days in silence
Dark pages no one has to see
Lock every door around us
In self defense
We conceal thisLife won't wait for us
And love won't heal itself
Let's find our way
Another day goes by
We can't live like this anymore
Can't live without love
Another year goes by
We can't live like this anymore
Can't live without love
Our life's just passing by
We can't live like this anymore
Can't live without loveWe let it down
Gave into infatuation
We tore it down
By giving way to my temptation
But I know there's a reason
We gotta believe it's true
And find our wayAnother day goes by
We can't live like this anymore
Can't live without love
Our final chance to try

We can't live like this anymore
Can't live without love
Can't live without love
Can't live without love
