# What Have We Become

## Novice

Let's take this slow
To see just where we went wrong
We're falling apart
And somehow you never knew just what you were
So listen when I say
You were the only one
You always were but now we stand aloneWhat have we become
This was all we needed
And now we're busting at the seems
What have we become
You were all I needed
And now this engine's out of steamWe're running on fumes
I wish I could see you now
Your smell's all around
I wish you never left at all
And I don't know how to put this into words
They way that it felt
To come home into this room without you hereWhat have we become
This was all we needed
And now we're busting at the seems
What have we become
You were all I needed
And now this engine's out of steamI'm sorry for all the times you cried
My words could never save you
You think you found me out but I know
The truth of it is
The only lie I ever told you was that I wanted you to go
I hope you see that this was more than just a lieWhat have we become
This was all we needed
And now we're busting at the seems
What have we become
You were all I needed
And now this engine's out of steamWhat have we become
This was all we needed
And now we're busting at the seems
What have we become
You were all I needed
And now this engine's out of steamWhoa....
Whoa....
