Warm Night

The Concretes

Follow you down on this warm night
Down to a certain color
Although I'll make sure we fall on safe ground
I wouldn't lay your faith in my handsSnare me well with all your charms
Bring out some amber to warm me
Only kiss me if the light is right
Otherwise we'll wait a whileSo follow you down on this warm night
Down to a certain color
Although I'll make sure we fall on safe ground
I wouldn't lay your faith in my hands
