

Carousel

Reality Check

Carousel, carousel, carousel
Carousel, carousel, carousel
Carousel, carousel, carousel
Carousel, carousel, carousel In this world of make believe
My eyes see what I want to see
I'm blinded with the simple lies
So easily I justify The sin that comes so naturally
Is this all that I'll ever be
Bring this madness to an end
Don't let this cycle start again It's got me spinning 'round
And I can hardly tell
Which way is up or down
On my sin carousel It's got me out of control
And I want to jump off
Somebody stop this ride
I think I've had enough Spinning 'round, up and down
But I know it's alright
Move ahead, falling back
Try to leave it behind Seems I've been here before
So familiar I can tell
Need your help to get off
Of my sin carousel It's suffice to say I move
Because of your great fortitude
So unstable are my feet
They love to make a fool of me Afraid to fall I feel corrupt
And as I drop, you pick me up
Take me were I've never been
Don't let this cycle start again It's got me spinning 'round
And I can hardly tell
Which way is up or down
On my sin carousel It's got me out of control
And I want to jump off
Somebody stop this ride
I think I've had enough Spinning 'round, up and down
But I know it's alright
Move ahead, falling back
Try to leave it behind Seems I've been here before
So familiar I can tell
Need your help to get off

Of my sin carousel Carousel, carousel
Carousel, carousel
Carousel, carousel
Carousel, carousel Spinning 'round, up and down
But I know it's alright
Move ahead, falling back
Try to leave it behind Seems I've been here before
So familiar I can tell
Need your help to get off
Of my sin carousel It's got me spinning 'round
And I can hardly tell
Which way is up or down
On my sin carousel It's got me out of control
And I want to jump off
Somebody stop this ride
I think I've had enough Spinning 'round, up and down
But I know it's alright
Move ahead, falling back
Try to leave it behind Seems I've been here before
So familiar I can tell
Need your help to get off
Of my sin carousel Spinning 'round, up and down, down
Spinning 'round, up and down, my sin carousel
Spinning 'round, up and down, down
Spinning 'round, up and down, my sin carousel Spinning 'round, up and down, down
Spinning 'round, up and down, my sin carousel
Spinning 'round, up and down, down
Spinning 'round, up and down, my sin carousel
