

Music Killed Me

I'm from Barcelona

Music almost killed me now and I don't understand
Music almost took my life, things got out of hand
Music almost killed me now, I don't understand
Music almost took my life, I don't give a damn
She almost killed me now
She almost took my life
She almost killed me now
She almost took my life
I don't ever wanna come down from here to there
And I don't ever wanna slow down, oh dear, oh dear
I don't ever wanna come down from here to there
And I don't ever wanna slow down, oh dear, oh dear
But it doesn't really matter anymore
'Cause you have to take some chances I suppose
And it doesn't really matter anymore
'Cause you have to take some chances I suppose
