

# Cold

Maxwell

I'm being cruel, baby  
I had to go and think that I could be more best  
Left alone then with you next, it develops none the less  
Hell hath no fury than the flurry of your snow  
Global warming ain't got nothing on this chic  
She's not to play with, you can't just leave this  
You can't just think that you can quit this  
She'll make you regret this  
She's on top and she means business  
As God is my witness my summer's gone frigid  
My summer's gone frigid  
I know you can hear this  
How can you be so cold? How can you be so cold?  
Good God the girl's gone cold, oh my the girl's gone cold  
How can you be so cold? How can you be so cold?  
I'm gon' freeze fo' sho', oh Lord you're so cold, so cold, so cold  
Tell me baby why I can't believe, yeah  
Something as good as you could ever love me, oh  
Lighter than air, you felt like a ton of bricks  
You dropped out from the sky filled with mercy  
How can you be so cold? How can you be so cold?  
Good God the girl's gone cold, oh my the girl's gone cold  
God bless you baby, oh you're too good to me  
Too good to be anything the mortal man can call on  
Do it baby, do it baby  
How can you be so cold? How can you be so cold?  
Good God the girl's gone cold, oh my the girl's gone cold  
How can you be so cold? How can you be so cold?  
I'm gon' freeze fo' sho', oh Lord you're so cold, so cold, so cold  
Oh Lord you're so cold, so cold, so cold
