

The Deep End

Josie

Why does no-one understand
Why am I so alone
And people say that they can help
And then they walk away

All I ask is for a little help
Finding my way out of this mess
But everyone's too busy
To come and rescue me

It's like I'm all alone sinking in the water in the deep end
No one's there to save my life when I need them the most
It's like I'm all alone sinking in the water in the deep end
Nobody can find the time, Gotta fight this fight all by myself

And sometimes life can be so hard
When no-one's around
I try to stand on my own two feet
But then they knock me down

I might find someone who believes in me
But even they don't see
What it's like to be
In so much pain

It's like I'm all alone sinking in the water in the deep end
No one's there to save my life when I need them the most
It's like I'm all alone sinking in the water in the deep end
Nobody can find the time, Gotta fight this fight all by myself

I wish I had someone to say that everything's will be okay tonight And all the time
I wish I had someone who knew just what my life is gonna do and if I'll be alright

It's like I'm all alone sinking in the water in the deep end
No one's there to save my life when I need them the most
It's like I'm all alone sinking in the water in the deep end
Nobody can find the time, Gotta fight this fight all by myself

It's like I'm all alone sinking in the water in the deep end
No one's there to save my life when I need them the most

It's like I'm all alone sinking in the water in the deep end
Nobody can find the time, Gotta fight this fight all by myself
