

# Why

## D.H.T.

Dark outside early in the morning  
In the cold standing on my own  
I feel lost, don't know where I'm going  
Without you I'm all alone  
(Without you I'm all alone) Where are you and God  
Why did you leave me?  
You were the one to fill my life  
Suddenly I can never see you  
Torn away without goodbye [Chorus 2x]  
Why  
Tell me why  
What I want is another chance  
To show you that I love you  
That I need you  
Cuz I want you by my side It's your love  
All the things about you  
I wish that I could turn back time  
Your soft touch all over my body  
Just one thing is on my mind Where are you  
And why did I lose you  
You were the one to fill my life  
Suddenly I can never see you  
Torn away without goodbye  
(Without goodbye) [Chorus 3x]  
Why  
Tell me why  
What I want is another chance  
To show you that I love you  
That I need you  
Cuz I want you by my side Why
