

Drink You Up

Eli Young Band

You're sweet like honey whiskey
You taste like homemade wine
You got me tipsy, baby
90 proof, blurring lines
Somewhere between right and wrong
I could drink you all night long

The way you mess me up
You know I want to
Stay here with you all night
Have another round or two
Suck the fire off your lips
Get a little more drunk with every kiss
I wanna drink you up, up, up

I'm like that disco ball
Chasin' you around the room
You're the whiskey
I got to have more of you
You're the burn that melts the ice
Tangled up, 'bout to lose my mind

'Til they shut the doors
'Til they lock us out
'Til the night is over
This place'll be spinnin' around
