Moving slow in this McLaren so they all can see me

Nigga winnin' attitude, shit is so easy

I'm living life, I'm on top of mine

And there's nobody here on Earth could ever stop my grind

Say slow money, is better than making none at all

So I'm taking my time because I need it all

Paper chasing, getting money on another level

But still rocking with them goons and them fucking rebels

Ain't a movie a spril life, I really live it

If you heard me talk about it then I probably did it

Real talk slow down take your time homie
Go hard or go home when it's time homie[Chorus:]
