

# Waiting

## Waxahatchee

Red forest double cross  
You'll hunt me down, smack me around  
I know you  
We'll burn down every tree  
Live out a dream  
And we'll be alone  
This grave is our home and we're free  
And you'll never cut me as deep  
We'll garnish a home  
But my blood is my own  
And we're free  
Red forest that once stood  
We come unwound  
Lay on the ground, don't make a sound  
We're waiting  
'cos everything has to end  
So I would recommend  
To be waiting
