

Anything for You

Evanescence

I'd give anything to give me to you
Can you forget the world that you thought you knew?(If you want me)
If you want me
(Come and find me)
Come and find me
(I'm right here)
Nothing's stopping you
So please release me I'll believe all your lies
Just pretend you love me
Make believe, close your eyes
I'll be anything for you Nothing left to make me feel any more
Theres only you and every day I need more (If you want me)
If you want me
(Come and find me)
Come and find me
(I'll do anything)
I'll do anything you say
Just tell me I'll believe all your lies
Just pretend you love me
Make believe, close your eyes
I'll be anything for you I'll believe all your lies
Just pretend you love me
Make believe, close your eyes
I'll be anything for you Anything for you I'll become your earth and sky
Forever never die
I'll be everything you need I'll believe all your lies
Just pretend you love me
Make believe, close your eyes
I'll be anything for you I'll believe all your lies
Just pretend you love me
Make believe, close your eyes
I'll be anything for you
